NTTA Program Description

About The Program

The Nissan Technician Training Academy (NTTA) prepares students for a career as a factory-trained technician at Nissan or INFINITI dealerships nationwide. Students gain hands-on automotive diagnosis and repair experience to step into one a growing career field as a certified Nissan and INFINITI automotive technician.

NTTA Program Benefits Include:

- Factory-Specific Training
- NISSAN & ASE Certification
- Apprenticeship Opportunities
- Tuition Reimbursement Incentive Program

By participating in NTTA, students can earn either a <two-year Associate of Applied Science (A.A.S.) degree or certificate in Automotive Technology>. Students will be eligible to receive certification in the following:

- Basic Electrical Concepts
- Chassis
- Engine Control Systems (ECS) Operations
- Engine Mechanical
- Heating, Ventilations & Air Conditioning
- Transmissions Diagnosis & Repair

NTTA graduates who complete and pass all six ASE certifications have the potential to become a Specialist Technician at a Nissan or INFINITI dealership.
